## EDUCATION

**University of Lincoln – M.Sc. Computer Science:** Predicted Distinction (86% Average) Sept 2025

Key Modules: Software Engineering, Programming Principles, Cyber Security, Machine Learning, Computer Vision

**University of Lincoln – B.Sc. Computer Science:** First Class with Honours May 2024

Key Modules: Team Software Engineering, Advanced Programming, Databases, Cloud Computing, User-Experience Design

## EXPERIENCE

**Synx Games** Feb 2025 – Present

Software Engineer (Internship) Lincoln, UK

- Co-led the end-to-end development of a multiplayer Roblox game from scratch, delivering a functional prototype in 8 weeks with core gameplay systems and UI built in TypeScript, React, and the Knit framework.
- Led a £500,000 Roblox Creator Fund application with pitch decks, timelines, and retention/monetisation plans.

**B-Hive Innovations** May 2024 – Sept 2024

Software & Data Technician (Contract) Lincoln, UK

- Diagnosed and resolved 8 critical reliability issues in Python-based applications for the TuberScan Venture project, improving data accuracy by 30% and ensuring accurate data collection for training machine-learning models.
- Enhanced data collection processes by automating data processing and validation pipelines, reducing manual errors to 0 and saving 5+ hours of work weekly spent fixing errors and inconsistencies.
- Improved task workflows and Git version control in a cross-functional team, delivering 95% of sprint objectives.

**Dollar Jeans** Jan 2023 – Mar 2024

E-Commerce Automation Engineer Lincoln, UK

- Managed an SQL database of 15,000+ products across eBay, Amazon, and Shopify, automating inventory updates for seamless synchronisation across platforms and generation of sales analytics for business insights.
- Optimised the product listing process by creating a Python script to automate generation of product descriptions, reducing average listing time by 50% and saving up to 8 hours of work per week.

## PROJECTS

**Personal Portfolio Website** Jan 2025 – Present

Front-End Development (TypeScript, React, Next.js)

- Developed a responsive portfolio website using React and TypeScript, achieving 1.29s First Contentful Paint, 1.64s Largest Contentful Paint, and 8ms Interaction to Next Paint through Vite-based performance optimisation.
- Migrated from a Vite static build to Next.js server-side rendering, slashing Cumulative Layout Shift from 0.46 to 0.001 and Time to First Byte from 2.4s to 0.13s, achieving a consistent 93–97 Vercel ‘Real Experience Score’.

**Library Management System** Oct 2024 – Jan 2025

Systems Programming (C++, JSON, Networking, Multi-threading)

- Engineered a library management system CLI in C++ with CRUD operations and JSON data persistence.
- Implemented 40+ unit tests using Catch2 to facilitate continuous integration and Test-Driven Development.
- Integrated multi-threading and socket-based networking, enabling concurrent user interactions and remote access.

**Sentiment Analysis Tool (B.Sc. Dissertation Project)** Sept 2023 – May 2024

Data Science / Machine Learning (Python, NLP, TensorFlow)

- Designed and implemented a sentiment analysis tool in Python leveraging BERT for social media analytics, delivering sentiment predictions with 86.95% accuracy, furthering to 95% with k-fold cross-validation enabled.
- Optimised data pipelines with Pandas and NumPy, improving processing speed by up to 80% on large datasets.

## SKILLS

**Programming Languages:** Python, TypeScript, JavaScript, C++

**Web Development:** React, Next.js, TailwindCSS, Django, Node.js, Express.js, RESTful APIs, Redux, Redis

**Cloud & DevOps:** Docker, Kubernetes, Azure, Vercel, CI/CD, Git, Agile, SDLC, PostgreSQL, MongoDB

## COURSES & CERTIFICATIONS

**IBM – Full Stack Software Developer Professional Certificate** (8/15 courses completed) Sept 2024 – Present

Content: React, Node.js, Express.js, Django, Flask, Python, Git, Docker, Kubernetes

**IBM – DevOps and Software Engineering Professional Certificate** (10/15 courses completed) Sept 2024 – Present

Content: DevOps, Agile, GitHub, Linux, Bash, SDLC, CI/CD, TDD/BDD, Cloud Computing
