Lincoln, Lincolnshire, United Kingdom

PROFESSIONAL SUMMARY

Postgraduate Full-Stack Software Engineer with expertise in **Python, JavaScript/TypeScript, and SQL**, alongside hands-on experience with frameworks such as **Django, Flask**, and the **MERN** stack. Proven ability to deliver optimised solutions, troubleshoot complex issues, and contribute to **Agile** teams. Strong understanding of version control with **Git**, **DevOps** practices, **CI/CD** pipelines, and **cloud technologies**.

SKILLS

- **Languages & Frameworks:** Python, JavaScript/TypeScript, C++, Django, React, Node.js, SQL, TailwindCSS
- **Cloud & DevOps:** Azure, Agile, Docker, Kubernetes, OpenShift, Git, CI/CD, SDLC
- **Software Development:** Version Control, Algorithms, OOP, TDD, A/B Testing, UX/UI Design
- **Other Tools & Technologies:** Unix/Linux, Bash, RESTful APIs, \LaTeX , VS Code, Vercel, Heroku

EXPERIENCE

- **Synx Games**  February 2025 – July 2025
Software Engineering Intern Lincoln, UK
 - Engineered a new Roblox experience using TypeScript and React, contributing to both frontend and game logic.
 - Designed, tested, and refined UGC (User-Generated Content) products by collaborating closely with developers and stakeholders.
- **B-Hive Innovations**  May 2024 – September 2024
Field Trials Technician (Temporary) Lincoln, UK
 - Developed and debugged Python software applications for the TuberScan Venture project, resolving 8 critical reliability issues disrupting data collection and compromising the accuracy of results.
 - Leveraged Agile, Scrum, Jira, and BitBucket within a small team to collaborate and manage tasks.
- **Dollar Jeans**  January 2023 – March 2024
E-Commerce Technician Lincoln, UK
 - Managed an SQL database of 15,000+ products, syncing items across platforms like eBay, Amazon, and Shopify.

EDUCATION

- **University of Lincoln** September 2024 – September 2025
Master of Science in Computer Science Lincoln, UK
 - **Classification:** T.B.C (Current Average: 86%)
 - **Activities & Societies:** Computer Science Society
- **University of Lincoln** September 2021 – May 2024
Bachelor of Science in Computer Science Lincoln, UK
 - **Classification:** First Class with Honours
 - **Activities & Societies:** Computer Science Society, UKIEPC Participant

PROJECTS

- **Library Management System (C++)** October 2024 – January 2025
 - Implemented a console-based library management system with CRUD operations and JSON data persistence. 
 - Utilised Test-Driven Development with 40+ unit tests using Catch2 to prevent issues in advance.
 - Integrated multithreading and networking (using sockets) to enable concurrent user operations and remote interactions for a multi-user experience.
- **Sentiment Analysis Tool (Python)** September 2023 – May 2024
 - Developed a deep-learning sentiment analysis tool with Python, using BERT to process social media data. 
 - Optimised data pipelines with Pandas and NumPy, improving processing speed by up to 80% on large datasets.

COURSES & CERTIFICATIONS

- **IBM:** [Full Stack Software Developer Professional Certificate](#) September 2024 – September 2025
- **IBM:** [DevOps and Software Engineering Professional Certificate](#) September 2024 – March 2025
- **Forage:** [Blackbird Australia - Software Engineering Job Simulation](#) February 2025

AWARDS

- **University of Lincoln:** [The Lincoln Award](#) September 2024 – February 2025
