Lincoln, Lincolnshire, United Kingdom

## PROFESSIONAL SUMMARY

**Postgraduate Software Engineer** with strong proficiency in **Python** and **C++**, alongside working knowledge of **JavaScript**, **C#**, and frameworks such as **React** and **Django**. Skilled in **Agile**, **DevOps**, and **User Experience Design**, with proven expertise in **debugging** and **collaborative problem-solving** within team environments. Proficient in **version control** tools like **Git** and experienced in developing, maintaining, and optimising software solutions. Eager to contribute to innovative projects in dynamic, fast-paced settings.

**Desired Roles:** Software Engineer, Full-Stack Developer, Back-End Developer, Front-End Developer

## SKILLS

- **Languages & Frameworks:** Python, JavaScript, C++, C#, HTML/CSS, Django, React, Node.js
- **Data Science & Machine Learning:** MySQL, NumPy, pandas, scikit-learn, TensorFlow, Keras
- **Cloud Technologies:** AWS, Azure, Google Cloud Platform
- **DevOps & Version Control:** Git, BitBucket, Docker, CI/CD, Kubernetes, SDLC
- **Project Management Methodologies:** Agile Development, Scrum, Kanban
- **Other Tools & Technologies:** Unix/Linux, LaTeX, VS Code, Jira, Unreal Engine 5, Microsoft 365, Adobe Suite
- **Other Skills:** Algorithms, Object-Oriented Programming, Test-Driven Development, User-Experience Design

## EDUCATION

- **University of Lincoln** September 2024 – September 2025 (Grad. April 2026)  
*Master of Science in Computer Science* Lincoln, UK
  - **Classification:** T.B.C (Current Average: 92%)
  - **Activities & Societies:** Computer Science Society
  - **Relevant Modules:** Advanced Software Engineering, Information Systems Security, Programming Principles
- **University of Lincoln** September 2021 – May 2024 (Grad. September 2024)  
*Bachelor of Science in Computer Science* Lincoln, UK
  - **Classification:** First Class with Honours
  - **Activities & Societies:** Computer Science Society, UKIEPC Participant
  - **Relevant Modules:** Advanced Programming, Algorithms and Complexity, Object-Oriented Programming, Parallel Programming, Scalable Database Systems, Team Software Engineering, User-Experience Design
- **Dissertation Project: Sentiment Analysis Tool** September 2023 – May 2024  
*Tools: Python, TensorFlow, Keras, PyQt6, Machine Learning* 
  - A user-friendly app to find the sentiment surrounding a query on social media. Achieved a grade of 76%.

## EXPERIENCE

- **B-Hive Innovations**  May 2024 – September 2024  
*Field Trials Technician (Temporary)* Lincoln, UK
  - **Developed and debugged software applications** for the TuberScan Venture project, improving **user-experience**, system reliability, and data accuracy in field trials by **troubleshooting** issues as they arose in a **fast-paced environment**.
  - Assisted in **research** and **development** activities, contributing to the exploration of innovative solutions for agricultural technology.
  - **Leveraged agile development, scrum, and Jira** to manage tasks and track progress, ensuring efficient collaboration and delivery within the team.
  - **Implemented version control using BitBucket**, facilitating smooth **CI/CD** of software tools in the TuberScan Venture.

## CERTIFICATIONS

- **IBM:** [Full Stack Software Developer Professional Certificate](#) Proj. September 2025
- **IBM:** [DevOps and Software Engineering Professional Certificate](#) Proj. March 2025
- **Atlassian University:** [Jira Fundamentals Badge](#) June 2024
